

# RACE 2023

The Raw and Circular Economy Expedition

22 July – 5 August

## Ready, Set, Go!

### What is RACE 2023?

RACE is a challenge-based learning programme across the raw materials value chain that unites sustainability pioneers to connect, learn, and innovate for the pressing raw material challenges. Comprised of expert talks, industry tours, entrepreneurship training and networking, this is the perfect opportunity for students to advance their career and gain insight into the challenges faced by industries in this sector.

### What's in it for you?

- Work, receive insights and network with the world's leading experts from industry, academia, and policy.
- Experience the raw materials value chain challenges by following the real-life journey of raw materials.
- Travel around Europe for 2 weeks visiting different industry partners.
- Network and innovate with fellow students from international backgrounds.
- Deepen your understanding of the circular economy and pressing raw materials challenges to inspire the Green Transition in Europe.
- Develop and pitch solutions to "Green Transition" challenges in diverse and interdisciplinary teams.

It was a very interesting 2-week journey across 4 different countries in Europe to learn about the future of sustainable mobility. Thank you @eitrawmaterials and all of these amazing people. It was an unforgettable experience.

 Carolina Vivians, 2019

Thanks @EITRawMaterials for appreciating our idea and giving us a platform to innovate and express the solutions to the challenges in the raw material value chain. #TeamLiCular #Sinrem #EITRace2021 #winners

 Abuzar Abrar, 2021

Two weeks of an incredible journey across Sweden and Finland #EITRACE2022 turned out to be one of the most memorable and beneficial events that have happened to me this year so far. I got a chance to gain a unique and valuable knowledge about the raw materials value chain from the experts in this field.

 Inara Kalina, 2022
